**Day of Triumph  
Sunday July 28, 2019 ~ 10am-2pm  
Larz Anderson Museum, Brookline MA**

Hi folks, July 28 is rapidly approaching and that means DOT 2019 will once again bring Triumph cars and motorcycles to the Larz Anderson Auto Museum in Brookline, MA. This year's event T-shirt will have a special design celebrating 50 years of the TR6. We will have NET hats and pint glasses and other regalia for sale. Soon we'll be reaching out to our usual volunteers to help on the day. We very much appreciate all contributions to the raffle table. They don't have to be Triumph related; our attendance is diverse.

We always get some surprise special cars at DOT and we hope this year will be no different with classifications like "Members other British". Most of all, this is the one time of the year where we can get most of the club members and the local Triumph community together at this great location, meet some old friends, make some new friends and have a good time. Now let's hope for great weather and a perfect day for DOT 2019. We look forward to seeing you on July 28th. -- John & Stan

## **Dennis Sokol Memorial Ice Cream Run: Sat Aug 3, 2019**

Ned and Ellen Sparrow have finalized the details for this year's Dennis Sokol Memorial Ice Cream Run. We will meet at 11:30am on Saturday, August 3 at Kimball's, 1543 Lunenburg Road (Rt 70), Lancaster, MA for lunch and socializing. We will kick off the ride at around 1PM, heading to the Kimball's in Jaffrey, NH for ice cream. People are encouraged to wear their best 'topaz' colored clothing in honor of Dennis and his TR6. See our website for a photo of an amazing display of topaz shirts from last year's event.

This is a charity event to raise funds for the American Cancer Society! Ellen will collect donations of cash or checks and forward them to her contact at the ACS's Framingham office. We would like to ask the NET membership to donate even if you cannot attend the ride. Let's see how much money we can raise!! As usual, if the weather is poor, we hope that people will come for the camaraderie and use their daily driver, if need be.

## **Are Your 2019 Dues Overdue?**

One of the most time-consuming tasks for our Membership Secretary is having to send out multiple reminders about membership dues. If you haven't yet paid, and want to remain a club member, please submit your check ASAP. If you can't remember if you paid your 2019 dues, you can use the tool on our website (Members Only > Check Your Membership Status) or email Rick Barnard at [membership@newenglandtriumphs.org](mailto:membership@newenglandtriumphs.org).

## **2019 Planning Meeting – March 24, 2019 - Event Report**

We had a large turnout for our startup meeting with several new members in attendance.

We revealed the new NET name badges that Rick Bernard, our Membership Secretary, designed. The club will

provide at no charge, one name badge for each current club member and one for his/her significant other. "Current" members are those who have paid their 2019 dues. (See the note above about checking your membership status if you can't remember if you paid your 2019 dues.) Information about ordering a name badge is on the home page of our website.

We populated our driving season calendar. Included below is the list of club events still to come this year, plus some non-club events that many NET members attend. NET events are marked with an asterisk. Details for some events are TBD, and dates may change, especially due to weather, so check the club's online calendar for the most current information and last-minute changes: [www.newenglandtriumphs.org/calendar.html](http://www.newenglandtriumphs.org/calendar.html)

## **Magnetic Parts Trays on the Cheap!**

I make small parts holders from large flexible magnets and lids from tin canisters. Every year I get these flexible magnets in the mail from advertisers. To make the holder just place the tin lid on the magnet and use a marker to trace the outline. Cut the magnet with a scissors to the size of lid and put it in the lid and you are ready to go. I like the magnet tray because you can group the screws or other items together making reassembly easier.
